Contemporary composer **Nathan Shubert** (*they/them*), originally from Canada and now based in Berlin, brings an intimate, observational approach to modern classical music. Their fourth full-length album, *ISO*, is a bare, heartfelt collection of felted piano works recorded live off the floor — no edits, overdubs, or headphones — in their Vancouver home studio just before relocating to Germany.

Shubert's previous album, *The Moon From Here* (2022), concluded a naturalistic trilogy exploring loss, solitude, and resilience during upheaval. Known for emotionally resonant performances, **Shubert** has toured extensively across Europe and North America, with recent appearances at *Q3Ambientfest* and *Piano Day* concerts in Berlin, Düsseldorf, and Stockholm.

Their reflective compositions and minimalist aesthetic continue to resonate with fans of ambient, neoclassical, and felted piano music worldwide.
